

ENCASE EDISCOVERY CONNECTORS

EnCase® eDiscovery collects from electronic mail servers and document repositories using connectors that are specific to each type of email or document store. Secure and direct connections allow organizations to execute seamless and efficient e-discovery collections from across multiple sources. Please see the list below of supported applications.

For more complete details on each connector, including supported versions, please contact Guidance Software at (888) 999-9712 or visit us online at guidancesoftware.com/ediscovery.

ABOUT GUIDANCE

Guidance exists to turn chaos and the unknown into order and the known-so that companies and their customers can go about their daily lives as usual without worry or disruption, knowing their most valuable information is safe and secure. The makers of EnCase®, the gold standard in forensic security, Guidance provides a mission-critical foundation of market-leading applications that offer deep 360-degree visibility across all endpoints, devices and networks, allowing proactive identification and remediation of threats. From retail to financial institutions, our field-tested and court-proven solutions are deployed on an estimated 33 million endpoints at more than 70 of the Fortune 100 and hundreds of agencies worldwide, from beginning to endpoint.
